

Hunter Washable, Reuseable Face Covering Range

hunter

This is **work smart wear**.

Hunter Ultra

Design

- Ultra-comfortable next to skin.
- Ultra-lightweight nose shaping.
- Chin and nose facial shaping.
- Tri-pleated style.

Structure

Made from 3 layers of fabric:

- The outer layer is fluid-resistant.
- 2 inner layers filter out fine dust and have antibacterial, antiviral properties.

Key Features

- Antibacterial properties still work up to 100 times at 85oC - to 135oC (both hand wash and machine wash).
- Sun protection (UV protection) up to 95%.
- Skin sensitive finish.
- 2 elastic bands on sides can be pulled out to adjust fit for each person's face.

Hunter Dura

Design

- Durable structure.
- Robust wire nose shaping.
- Gentle face shaping.
- Tri-pleated style.

Structure

Made from 3 layers of fabric:

- Outside layers 90% polyester 10% elastane.
- Inside layer in circular Knit 80% polyester 20% elastane.

Key Features

- Washable up to 100 times (both hand wash and machine wash).
- Particulate filtration properties.
- Droplet repellent.
- Antibacterial finishing.
- Nose bridge for comfort and fit.
- Two ear loops.

Hunter Shield

This ePTFE membrane design means the face mask will be:

- Fluid resistant ePTFE membrane.
- Breathable.
- Washable both hand wash and machine wash.
- Very hard wearing.
- Reusable with long lifespan including washing.
- Improved elastic.
- Adjustable toggle has been added for a secure fit.

Note: Our face masks are not certified as healthcare products, nor should they be used in a healthcare environment in replacement to a certified face mask.

A range of other face masks available including Type IIR fluid resistant face mask.
